

Palindrome

```
#include<stdio.h>
int main()
{
int og,n,rev=0;
printf("Enter a numbers:");
scanf("%d",&n);
og=n;
while(n>0)
{
rev=(rev*10)+(n%10);
n=n/10;

}
if( og==rev )
printf("%d is palindrome\n",rev);
else
printf("%d is not a palindrome\n",rev);
return 0;
}
```
