Prime numbers in given range

```c
#include<stdio.h>
int main()
{
 int i,j,min,max,count;
 printf("Enter the range:\n");
 scanf("%d %d",&min,&max);
 for(i=min;i<=max;i++)
 {
   count=0;
   for(j=1;j<=i;j++)
   {
     if(i%j==0)
     {
       count++;
     }
   }

  if(count==2)
   {
     printf("\n%d",i);

   }
  }

 return 0;
}
```
